

E-tutorial on Microplanning - I

Knowledge Quiz

1. Micro planning helps to:

Please respond below with the correct option.

- Facilitate a peer educator to do individual-level planning
- Facilitate follow up on prevention service uptake based on individual risk levels of MARPs
- Understand the extent to which program services have reached the MARPs and also helps to identify and monitor problem areas
- All the above

Answer:

2. A Microplan is an approach, which is visual and updated regularly

Please respond as Yes or No.

Answer:

3. The benefits of micro planning include:

Please respond below with the correct option.

- Clearly demarcates area of operation for a Peer Educator
- Tracks uptake of services for all registered MARPs in a given site
- Peer Educators are able to collect, analyze and act upon data and become site managers
- Shift from delivering services (push) to meeting community's demand for services (pull)
- All the above

Answer:

4. Geographically dividing the overall area into specific areas for implementation and focus for every peer educator is critical for microplanning to work.

Please respond as Yes or No.

Answer:

5. All MARPs have the same needs and risk profiles and therefore can be provided the same service package.

Please respond as True or False. Give your reasons in less than 100 words.

Answer:

6. Please define an At-Most-Risk MARP in your context.

Your response needs to be within 100 words

Answer:

7. What is the benefit of the microplan for a low-literate peer educator?

Your response needs to be within 100 words

Answer:

8. Risk-based segmentation along with correct use of the microplan influences condom supply, communication messages and the focus as per the risk profiles of the MARPs.
Please respond as Yes or No.

Answer:

9. Microplanning will allow us to individually track project services being provided to every MARP as well as any changes in risk profiles.
Please respond as Yes or No.

Answer:

10. Can micro-planning be integrated within your program? How will the learnings from this e-tutorial help you in your current program?
Your response needs to be within 100 words

Answer:

Thank you!
